PROFESSIONAL SUMMARY

Computer Science postgraduate experienced in Software Development and Artificial Intelligence. Proven ability to develop fully functional AI applications (Grafı — an offline meeting intelligence desktop app). Committed to translating business requirements into technical solutions.

EXPERIENCE

Backend Developer Intern

January 2026 – March 2026

Qworks Technologies Pvt. Ltd.

Remote

- Analyzed backend workflows and developed 20+ secure RESTful APIs using Java Springboot.
- Developed and maintained MySQL databases, ensuring data integrity and optimized query performance.
- Diagnosed and resolved backend system issues.

Full-Stack Developer Intern

May 2022

Mindgate Solutions Pvt. Ltd.

Mumbai, Maharashtra, India

- Training in full-stack development of HR Recruitment Portal.
- Learned Java Springboot, SQL and AngularJS.

PROJECTS

Grafı (AI-Powered Meeting Minutes Desktop App) | *Python, Tkinter, Ollama, PyInstaller*

[Link](#)

- Built an offline AI desktop app for meeting recording, transcription, and minutes generation using Faster-Whisper, Resemblyzer, and Ollama.
- Shipped as a one-click Windows installer with bundled AI models.

InvisiByte (Steganography Tool) | *Python, Streamlit, NumPy, Pillow*

[Link](#)

- Developed a steganography app using Least Significant Bit (LSB) encoding to hide and extract secret text within images.
- Deployed a responsive Streamlit application that enables users to encode and decode hidden messages through a friendly interface.

GradeNavigator (AI Student Assessment System) | *Python, Streamlit, NLP, OpenCV*

[Code](#)

- Developed an AI-driven grading system integrating OCR and NLP pipelines to evaluate handwritten descriptive answers.
- Implemented plagiarism detection and semantic similarity analysis algorithms using spaCy and Gemini-based evaluation models.
- Developed OMR evaluation using OpenCV and integrated Google AI OCR for text extraction.

TECHNICAL SKILLS

Programming Languages: Python, Java

Frameworks & Libraries: Springboot, Django, Streamlit, Ollama, LangChain-LangGraph

Developer Tools: Git, Postman, VS Code, Docker, Claude, n8n

Cloud: GCP (Basics)

EDUCATION

CHRIST (Deemed to be University)

Master of Computer Applications

Bangalore, Karnataka

June 2024 – April 2026

St. Xavier's College (Autonomous)

Bachelor of Science, Information Technology

Mumbai, Maharashtra

June 2020 – April 2023
